EDUCATION**

**A PROJECT OF:**

***"...the proprietors who care"***

The Grand Prix Scholarship Program originally developed in Texas, has been adopted by the Bowling Centers Association of Wisconsin and upon implementation Wisconsin will be among more than twenty states nationwide to participate.

The BCA of Wisconsin is a cooperative non-profit membership association of bowling establishments throughout the state of Wisconsin performing a variety of promotional management, and technical services for its member establishments.

Well over 50% of the finest commercial bowling centers in Wisconsin - of all sizes - have joined together in a mutual cause to accomplish collectively, that which cannot be done on an individual basis in promoting the industry and the game of bowling. This program is one example of this joint endeavor.

Your local bowling center, by virtue of distribution of this leaflet is a participating member of the Bowling Centers Association of Wisconsin - the proprietors who care!
